Summary of Direct Charitable Activities (Part IX-A)

The Charles & Agnes Kazarian Eternal Foundation (CAKF) focuses primarily on economic development and education initiatives to empower great aspirations in the whole human family, with a special focus on projects that support Armenian culture, in both the Diaspora and Armenia.

Initiative 1 – Economic Development

CAKF's economic development initiative includes global economic development and research projects.

Within this initiative, its most significant program is J-InterSect (JIS), a global performance improvement company at the nexus of the commercial and social sectors. JIS products and services create high value-add, high return on resources, and high impact (the "3-Highs"). Organizations utilize JIS Project Reports and Rapid Response Memorandums to improve performance primarily in four ways: Benchmarking and Best Practice Research; Internal and External Training; Key Performance Indicator Management; and New Initiatives Assessment. JIS improves performance within ten Programs at the nexus of the commercial and social sectors. JIS team members are located in the United States and Asia and have completed more than 290 Project Reports and Rapid Response Memorandums.

Over the past ten years, JIS has developed proprietary processes for producing Project Reports and Rapid Response Memorandums focused on improving performance through the "3-Highs". The processes include JIS's proprietary ABCs covering approximately 140 countries: (A) Analyze ten global benchmarks and their high value-add best practices; (B) Build relationships with ten highly successful global thought leaders or executives; and (C) Convince that the JIS research is vastly superior to the ten best studies on the topic.

J-InterSect's management-level Project Reports and Rapid Response Memorandums strengthen democracy and free enterprise by providing top quartile benchmarking and high value-add best practice research. JIS continued to expand operations globally leading to increased production of intersectoral program Project Reports.

Additionally, CAKF continued its community development bank linked deposit Program Related Investments to provide capital for economic development in underserved communities consistent with CAKF's mission and NPB philosophy.

Project 2 - Education Project Sector

CAKF's educational initiative seeks to empower individuals with knowledge and wisdom to improve themselves and the world in which they live.

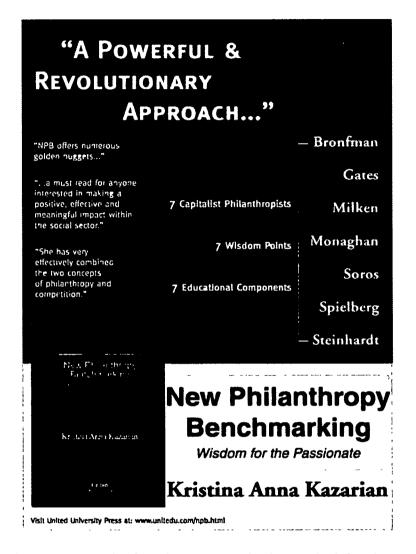

New Philanthropy Benchmarking: Wisdom for the Passionate (NPB), published by CAKF's United University Press is an innovative and powerful contribution to professional philanthropic pedagogy. The 420-page hardcover textbook has gained wide recognition as an innovative and powerful contribution to professional philanthropic pedagogy. The three sets of seven messages displayed on its cover are foundational principles of CAKF and offer some of the most compelling and thought-provoking broadsides against traditional philanthropic practices. NPB offers the following in a concise, working book, and prospectus format:

- 7 Capitalists/Philanthropists Profiles: Including the Bronfman brothers, Gates, Milken, Monaghan, Soros, Spielberg, and Steinhardt. NPB distills and explains the successful transfer of commercial practices to social sector initiatives to which each is passionately committed.
- 7 NPB Wisdom Points: The 7 intersectoral wisdom points gleaned from sector best practices complemented by innovative insights and extensive original research. The wisdom points range from empowering to operationally practical.
- 7 Educational Components: The 7 educational components provide the reader a structured framework to retain and apply the expansive content of NPB. These encompass three categories that build on a synergistic collaboration of commercial sector benchmarking, progressive intersectoral practices, and contemporary financial market analytical tools.
- NPB Multiplier/Discount Effect: The power and compelling attractiveness of NPB is its ability to assist CPs in multiplying the impact of their resource investments relative to similar social sector initiatives and minimize risk. The Multiplier/Discount Effect offers the tool to foster the challenge to achieve 10, or even 100, times greater impact on each dollar of social sector investment.
- Cutting-edge Financial Concepts: NPB adopts an unmistakable advocacy position for the greater adoption of capital market-type financial practices to the social sector.
- Misfortunate Situations and Risk Assessment: NPB contains diverse and comprehensive examples of social sector misfortunate situations, especially those resulting in unintended and negative consequences.
- Appendices: Twenty-one appendices offer powerfully practical tools for the target audience. The wealth of deep information allows the passionate reader to select relevant resources and take NPB to successful fruition.

CAKF continued efforts to disseminate the book and its message to the growing number of global capitalist philanthropists whose initiatives are rapidly increasing in size and influence, as well as universities developing philanthropy programs. The nation's top several hundred academic and public libraries have added NPB to their collections. NPB has been shown in the New York Times Book Review, The Harvard Business Review, The Chronicle of Philanthropy, and Foreign Affairs. Reviews are strong, including an impressive review by a highly regarded professional in the field of new philanthropy and former Research Fellow at both the Harvard

and Stanford graduate schools. NPB was cited by Harvard University on a top recommended Moral Leadership reading list.

More information about NPB can be found at www.unitedu.com/npb.html.

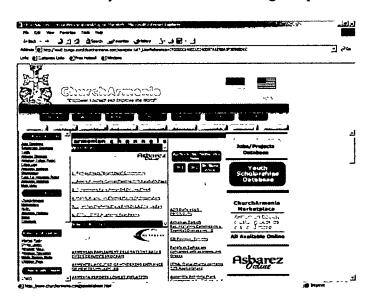

CAKF continued its distribution of DiscoverArmenian™, the world's leading Armenian language software program. Based J-InterSect benchmarking and best practice research, CAKF's team designed and developed the software providing Western Armenian language training. 18 months of work by over two dozen Armenian-based professionals produced a world-class software program containing 500 hours of lessons (equivalent to four semesters), over 5,000 words and phrases, vivid graphics, songs, stories, and an interactive dictionary. The program accommodates beginners to advanced levels from ages 9 and up. Distribution is made directly through www.discoverarmenian.com, which also offers an on-line demonstration of the software. The program is available to both individuals and educational institutions.

CAKF is currently working on an updated version of the software.

In addition to the DiscoverArmenian[™] software program, CAKF produced a demonstration CD-ROM of the software that it distributes, as well as *Discovering Armenian*, a short cultural film about three young Diasporan Armenian that highlights the extraordinary rewards in learning the Armenian language and heritage.

CAKF's ChurchArmenia initiative includes programs to foster a strong and prosperous global Armenian community. Its website, www.churcharmenia.com combines aspects of Armenian culture in an interactive cyberportal. The site's mission "Empower Yourself and Improve the World" is accomplished through the integration of web-based E-mail and Internet-based collaborative features into an Armenian culture portal offering daily Armenian news, inspirational Christian and educational articles, jobs, scholarships, and an Armenian cybermarketplace. ChurchArmenia has empowered thousands of otherwise unconnected Armenian and Christian youth. CAKF is working to update and expand site content.

CAKF's Healthcare program included research into and community education on healthcare issues of cultural significance. The Program includes global benchmarking and high value-add best practice research from J-Intersect's Healthcare Economics sector. The Foundation believes that a society is best judged by its success in empowering the most disadvantaged, especially those with disabilities.

CAKF continued to expand the Oral History Library (OHL) archive to document, preserve, and digitally present the historic record of all Armenians. The archive includes audio and video recordings from global sources, as well as still and digital photographs. OHL was created to increase knowledge of Armenian history, culture and heritage. It aims to contribute to the Armenian community by collaborating with other historical, cultural, and educational organizations.

CAKF's Armenian field hockey program providing equipment, coaching, and tournament competition for nine teams of Armenian children. The program works to instill values including teamwork, determination, and goal-setting that will enable participants to succeed in Armenia's transitional economy.

In 2013, CAKF made a new Program Related Investment to provide capital for education in underserved communities consistent with CAKF's mission and NPB philosophy. In 2011, CAKF began discussions with the Center for Agriculture and Rural Development (CARD) Inc. regarding a program to provide primary education student loans for impoverished Filipinos to send their children to primary school, referred to as its Zero Drop-out Education Scheme (ZeDrES). The aim of the ZeDrES is to encourage impoverished families to send their children to and eventually graduate from primary school. CAKF made this initiative a reality through a program related investment in CARD consisting of a below market rate loan. The investment has proved a great success, providing funds for hundreds of children to attend primary school.
